

# Oliva Grano

— iznik nicea —

I would like to inform you about my brand Oliva Grano.

We are located in **İznik - Nicea Türkiye**, an old capitol city to 4 civilizations and a nominee for UNESCO world heritage.

Olive orchards can range from 50 to 300 years old with the main variety being **Gemlik / Trilye** which is mainly used for table olives (to eat). However it has a good potential for oil as well.

Our company **Oliva Grano** was established by me (2022) with the help of my parents and we decided to produce a branded product. With my studies on agricultural technologies and wine (Wine & Spirit Education Trust)

I combine both of my knowledge to produce a quality product.

2023 vintage in Spain and Italy has been too harsh with heat damage causing reduced yields. The EU market probably will look for alternatives and Türkiye appears to be in first place with Greece to support the olive oil demand.

My product details are as follows

**1. Early Harvest Extra Virgin Olive Oil (Cold Extracted)** available in 0.5 L glass bottles. (0.2 acidity level) intense aroma profile and best to consume raw.

**2. Extra Virgin Olive Oil (Cold Extracted)** available in tin cans mainly 5 L. delicate aroma profile and best for cooking.

Recently my representative in the EU is Weingut Peter Schandl from Rust - Burgenland Austria. We can manage a sample for you if you would like to try and be interested. I also like to introduce their products to you as well. They range from sparkling to sweet wines showing great terroir expressions and winemakers touch.

				
NOSE	TOMATO LEAF	FLORAL	GRASS	UNRIPE BANANA
				
PALATE	BLACK PEPPER	GREEN APPLE	GREEN ALMOND	UNRIPE BANANA
